## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-12 and 31-42 are allowed.

### *Reasons for Allowance*

2. The following is an examiner's statement of reasons for allowance: The claimed invention(s) pertains to electronic delivery of information where in a user interacts with a source of the information in order to facilitate the delivery. Closest prior art of record Burakoff et al. (US Pat. 7,028,190) teaches a method and system for electronic delivery of information.

The novel feature recited in the allowed claims is that a recipient exercises multiple levels of serial responses (first exercise of the option to access the available information, second exercise of a granting or denial of the prompted consent, third exercise of the provided electronic access) prior to the information being provided to the recipient.

Burakoff teaches that information is provided to the recipient once the consent is received and stored at a server. The aforementioned claims of the instant application are non-obvious improvements over Burakoff.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
